STORAGE
Store in a cool, dry place. Do not expose to direct sunlight.
ATTENTION
For safety, please refer to the product label for the detailed information.

Protect your skin, Nourish your body

General Information

You can't stop from ageing. But you may be able to age gracefully. Did you know that **collagen** (75-80% of **skin protein** in your body that is a major building block for skin, bones and blood vessels) **decreases as you get older?**

Collagen loss amounts to dry, flaky, greasy or wrinkled skin. This is often a tell-tale sign the skin is thirsty. So, how do we protect and nourish our skin? We need collagen and peptide.

COLLAGEN

protein for skin

PEPTIDES

short strings of amino acids which also happens to be the building blocks of collagen. Research has suggested that **peptides slow down the ageing process, reduce inflammation and destroy microbes**

Collagen alone, in its full-length form, is difficult to break down during digestion and too large to cross the intestinal wall.

COLLAGEN PEPTIDES

generally **more bioavailable** after being broken down from full-length collagen molecules - they are **better absorbed into the bloodstream** as they are much shorter chains of amino acids than collagen.

COLLAGEN PEPTIDES BENEFITS

Healthy & Glowing Skin

Strong Nails

Thick & Shiny Hair

Strong Metabolism

Strengthened Cardiovascular Health

Improved Digestion

Good Joint Health

HOW TO INCREASE MY COLLAGEN PEPTIDES?

Flaxseed & Wheat

Bone Broth

Protein-rich food

Vitamin C

Zinc

Copper

Is There A More Convenient Solution? **YES!**

REACTIVATE
with Marine Collagen
Oligopeptide

RESTORE
with Soybean
Peptide

PROTECT
with Chrysanthemum
Extract

Introducing **Nutrilite Mixed Collagen Peptide Drink**

Want healthy and glowing skin? Available in a convenient ready-to-use sachet, simply tear open and mix the drink at any given time of the day.
