B Nutrilite Mixed Collagen Peptide Drink

How does your body make collagen? By combining amino acids – which is derived from consuming protein-rich sources. As you **grow older, naturally made collagen decreases** and you will need to source for supplements and include this in your diet. By taking the Soy Protein Drink + Mixed Collagen Peptide Drink, you increase your body's ability to create and sustain healthy hair, skin and nails.

- 1 Reactivate with marine collagen oligopeptide
 - Promote skin collagen synthesis

- 2 Restore with soybean peptide
 - Reduce skin damage like wrinkles
 - Support skin cell regeneration
 - Improve skin elasticity and hydration

- 3 Protect with chrysanthemum extract
 - Antioxidant boost
 - UV shield – protection against sunlight
 - Prevent skin discolouration
 - Improve corneal moisture to relieve tiredness

This combo helps:

Busy working women
and/or parents

Female golden
agers

Beauty Begins from Within

- Extracted from marine collagen oligopeptide powder + soybean peptide powder (about 56%) via bio-enzymatic technology.
- The bio-enzymatic technology allows the dual peptide combination to penetrate the skin, intestinal wall and bloodstream for faster nutrient absorption.
- Healthy choice – sugar free

Recommended intake:

1-2 sticks per day. Empty one stick into 100-150ml warm water. Mix and drink. You may also mix it with your favourite fruit juice.

C NUTRILITE Botanical Beverage Mix Chicory Root Extract with Probiotics & NUTRILITE Kids 4-in-1 Plus

Though probiotic is often associated with gut health, **protein is needed for gut repairs, strengthening your gut lining and producing tissues in your digestive tract.** The NUTRILITE Soy Protein Drink also has a PDCASS score of 1 which means it can be easily digested and absorbed.

Consume protein but don't forget to feed your gut with the right bacteria and this is where probiotics come in. Choose the **NUTRILITE Botanical Beverage Mix Chicory Root Extract with Probiotics** for adults or the **NUTRILITE Kids 4-in-1 Plus** for your kids

The BFF you want for healthy digestion & immune system

B

6.3B
Billions of good bacteria

To keep your immune system functioning at optimal health, protein is needed. With protein, your **body can produce antibodies which fights off infections and germs.** It also helps the body produce white blood cells and T-cells which helps fight infections and keeps body from falling sick. As for Vitamin C, it defends free radicals from harming the body and also produces vital white blood cells. To ensure a healthy body, take **Protein + Vitamin C = Double the protection.**

F Nutrilite Salmon Omega Complex

MAL12095029N

A concentrated source of Omega-3 harvested from fishes from nutrient-rich Norwegian waters.

Processed to preserve purity & achieve industry standards.

Helps maintain overall health & general well-being.

This supplement contains 30IU of d-alpha tocopherol, a natural antioxidant to prevent fish oil from turning rancid. Molecular distillation is repeatedly used to concentrate omega-3 fatty acids in the fish oil to ensure purity.

Sea to supplement: Fish harvested from the coastal fjords in Norway.

Derived from salmons, sardines and anchovies: 330.93mg of Omega 3-fatty acids with a balanced ratio of 193.51 EPA and 137.42mg DHA.

Recommended intake:

1 soft gel daily, after meal.

Nutrilite Cal Mag D Plus

Contains natural calcium & magnesium sources.

A daily dose offers calcium, magnesium & Vitamin D to build stronger & healthier bones.

Natural Vitamin D source from lanolin enhances calcium absorption.

Maintain bone health: Adults under 35 at risk of calcium deficiency if they do not consume enough calcium-rich food.

1 tablet, 3 times daily after meals. Easily absorbed.

This combo helps:

Those with calcium deficiency

Those looking to strengthen their bone health
