

Manufacturer's Certification Statement

Pertaining to Pella Corporation windows and doors that may qualify as energy efficient building envelop components under section 25C of the Internal Revenue Code as amended by the Inflation Reduction Act of 2022.

Issued September 2022

This manufacturer's certification statement can be relied upon by you, the taxpayer, for verification that certain Pella windows and doors are eligible for the tax credits allowed by Section 25C of the Internal Revenue Code, as extended by the Inflation Reduction Act of 2022.

The tax credit is allowed for certain energy-efficient windows and doors that are purchased and installed from January 1, 2012 through December 31, 2032. This latest legislation retroactively extends the following tax provisions for windows and doors purchased and installed in 2022. It allows for a credit of 10% of the cost of a qualified energy-efficient improvement, up to \$200 for windows, not including installation. The qualified energy efficient improvement must be made on the taxpayer's existing home and principal residence. There is a \$500 maximum lifetime credit for all qualified energy-efficient improvements.

In accordance with IRS guidelines, including IRC Section 25C, IRS Notice 2006-26, and IRS Notice 2009-53, Pella Corporation has determined that certain windows and doors certified as meeting ENERGY STAR® V.6 program requirements are "Eligible Building Envelope Components" qualifying for the Federal income tax credit allowed under Section 25C of the Internal Revenue Code. For further information on which Pella products qualify refer to <http://www.pellaadm.com/>. Refer to <http://energystar.gov> to determine the requirement for your region.

Under penalties of perjury, I declare that I have examined this certification statement and, to the best of my knowledge and belief, the facts presented are true, correct, and complete.
