may vary slightly from illustrations and photos.

Meet the Pella® Lifestyle Series Hidden Screen
Available exclusively at Lowe's, the Hidden Screen appears when you open the window and folds away when it is closed. It gives you a clear view when your window is closed and improves curb appeal year-round.

Why You Can Trust Pella

At Pella, we don't just create windows and doors. We innovate with purpose, design with passion, build with integrity and deliver with pride. That's why Pella is the most preferred window and door brand by homeowners.¹

Rated #1 for innovation by homeowners¹

We are continually striving to improve what we do and how we do it. That drive has earned us 150 patents and counting and a spot on Fast Company's Top 10 Most Innovative Companies in Design 2022. In 1925 we opened our doors with the patented Rolscreen® retractable screen, a time-tested innovation that is still one of our most desired features today.

Rated #1 for highest quality by homeowners¹

We make products specifically for you with meticulous care and attention. Our wood craftsmen have been honing their skills, on average, for over 14 years — that's longer than it takes for most to earn their PhD. And it doesn't stop there. Our product designs are tested beyond industry standards, so you can trust them to perform.

The Best Limited Lifetime Warranty for wood windows and patio doors²

You can feel confident in your investment. We pride ourselves on providing exceptional quality, exceeding expectations and going beyond requirements. That's why we stand behind all of our windows and patio doors with a limited lifetime warranty.³

¹ Study of homeowner perceptions of leading national brands. Study commissioned by Pella, 2021.
² Based on comparing written limited warranties of leading national wood window and wood patio door brands. See written limited warranties for complete details, including exceptions and limitations, at PellaAtLowe's.com/warranties, or contact Pella Customer Service at 833-767-0926.
³ See written limited warranties for complete details, including exceptions and limitations, at PellaAtLowe's.com/warranties, or contact Pella Customer Service at 833-767-0926.

Reasons to Replace

There’s more to gain from new windows and doors than thoughtful designs. Check out seven things new Pella products can do for you.

- 1. Help lower heating and cooling costs.**
Drafty, leaky windows make your furnace and air conditioner work harder and increase your energy bills. It’s time to get efficient and replace those old windows.
- 2. Increase your home’s value.**
Replacement windows have a 67% median return on project costs upon resale.¹
- 3. Achieve greater energy efficiency.**
Pella windows and doors offer energy-efficient options that will meet or exceed ENERGY STAR® certification in all 50 states.²
- 4. Keep outside noises out and inside noises in.**
Insulating window frames and multiple panes of glass help reduce the noise from traffic, lawn mowers and neighborhood activity.
- 5. Tailor your home to you.**
New windows and doors can dramatically improve the beauty of your home — inside and out.
- 6. Improve comfort and privacy.**
Control natural lighting and privacy with accessible, integrated blinds and shades with or without motorization powered by Pella Insynctive® technology.³
- 7. Add peace of mind.**
With excellent engineering and quality materials, you can be confident that every window and door will operate as intended for years to come.

To learn more, visit PellaAtLowe.com.

¹ Return on project costs upon resale for vinyl replacement windows according to the National Association of Realtors 2022 Remodeling Impact Report. Replacement wood windows have a 63% median return on project costs upon resale.
² Pella products may not meet ENERGY STAR® guidelines in Canada. For more information, contact a Lowe's associate or go to energystar.gc.ca.
³ Requires connection to a compatible home automation system through the Insynctive Bridge. For a list of compatible smart devices and home automation systems, visit PellaAtLowe.com/insynctive.

Window & Patio Door Buying Made Easy

Follow this six-step guide to make window and patio door shopping a breeze.

1

Evaluate Your Current Windows and Doors

Do you have difficulty cleaning, closing or opening your windows and patio doors? Look for problem signs, such as drafts, condensation, fogging, chipping or water stains. Also consider the style and availability of replacement parts.

2

Identify What's Important To You

Energy efficiency? Less cleaning? Hardware and finishes? Identify which window and patio door features, like between-the-glass blinds, screens, grilles or smart technology, are most important to you. Design the space that you've always dreamed of.

3

Select the Right Material

It's one of the most important questions: which material is best for my home? Wood, fiberglass and vinyl are common choices, and each has its own unique attributes and distinctive styles. Explore window and patio door materials on pages 11, 27 and 33.

4

Match Windows and Doors to Your Style

Depending on the style, function and your budget, there are a wide variety of window and patio door styles and finishes available. Compare Pella's product lines on pages 42 and 43.

5

Give Your Windows and Doors Personality

Based on the window or patio door line and style you choose, select from dozens of finishes and colors, between-the-glass blinds, shades or grilles to personalize your products. Choose hardware, trim and energy-efficient glass options, too.

6

Talk to an Expert

We understand that window and patio door shopping isn't something you do every day, so we are here to help. Visit your local Lowe's Home Improvement store or PellaAtLowe.com, or schedule an in-home consultation to see samples, get measurements and receive a free quote.

Pella®
Lifestyle Series
Clad-Wood

#1 performing wood window and patio door¹
For the combination of energy, sound and value.

Hidden Screen and other innovations
Revolutionary screen appears when you open the window and folds away when it is closed. Available exclusively at Lowe's.

83% more energy efficient²
On average compared to single-pane windows — with performance solutions for improved comfort.

Pella Lifestyle Series

Exceptional performance and style.

Style flexibility. Whether your home is traditional, modern or somewhere in between, create beautiful windows and patio doors that fit your style.

Redefining performance. Get both unrivaled energy efficiency and sound performance at an incredible value. With the Ultimate Performance package, windows are on average 79% more energy efficient and reduce 52% more outside noise than single-pane windows.^{2,5}

Enhanced durability. Our windows are designed to stand the test of time with exclusive EnduraGuard® wood protection and an aluminum-clad exterior with EnduraClad®

Room-by-room solutions.

Exclusive Hidden Screen. The innovative window screen gives you a clear view when your window is closed and improves curb appeal year-round. Available on double-hung windows.

Integrated blinds and shades. Intentionally designed to be accessible, blinds and shades are tucked between glass panes and are protected from dust, pets and little hands.

Added security and convenience. Add peace of mind with optional built-in window and door sensors and motorized between-the-glass blinds and shades that raise and lower with a touch of a button.

Create solutions that are perfect for real life. Covered by the best limited lifetime warranty for wood windows and patio doors, Pella Lifestyle Series offers everything you love about wood — including beauty, durability and style flexibility.³ Begin with dual- or triple-pane glass and then select from the most desired features and options.⁴

Pella Lifestyle Series is the #1 performing wood window and patio door for the combination of energy, sound and value.¹ We designed windows and patio doors to work for your life, room-by-room, packing them with time-tested innovations including the new Hidden Screen and integrated blinds, shades and security sensors.

View features and options online or ask an associate.

¹ Performance solutions require upgrades to triple-pane, AdvancedComfort Low-E and mixed glass thickness. Based on comparing product quotes and published STC/OITC and U-Factor ratings of leading national wood window and patio door brands.

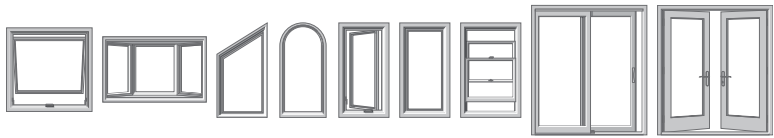

² Window energy efficiency calculated in a computer simulation using RESFEN 6.0 default parameters for a 2000 sq. foot new construction single-story home when comparing Pella Lifestyle Series windows with Advanced Comfort Low-E triple-pane glass with argon and mixed glass thickness to a single pane wood or vinyl window. Double-hung windows are not available with triple-pane glass. The energy efficiency and actual savings will vary by location. The average window energy efficiency is based on a national average of 94 modeled cities across the country and weighting based on population. For more details see pella.com/methodology.

³ Based on comparing written limited warranties of leading national wood window and wood patio door brands. See Pella written Limited Warranty for details, including exceptions and limitations, at PellaAtLowe.com/warranties, or contact Pella Customer Service at 833-767-0926.

⁴ Double-hung window only available with dual-pane glass.

⁵ Reduction in sound based on OITC ratings of Pella Lifestyle Series windows with triple-pane glass with mixed glass thickness to a single-pane wood or vinyl window with an OITC of 19. Calculated by using the sound transmission loss values in the 80 to 4000 Hz range as measured in accordance with ASTM E-90(09). Actual results may vary.

Available in these window and patio door styles:

Fiberglass Windows & Patio Doors

Windows & Patio Doors
Fiberglass

As a leader in innovation since 1925, we created our proprietary fiberglass to give our customers more — more strength for long-lasting use and thinner profiles with more glass. Our fiberglass is the strongest material for windows and patio doors, engineered for lasting durability.*

Trusted in tools, boats, bridges and more, fiberglass is a naturally strong and durable material making it a superior choice for windows and patio doors. Our exclusive fiberglass material is made through a one-of-a-kind manufacturing process. Our easy-to-care-for fiberglass windows and patio doors feature a long-lasting powder-coat finish that will never need to be painted or refinished.

PROPRIETARY FIBERGLASS MATERIAL
Pella's fiberglass windows and patio doors are made from our proprietary fiberglass material through our one-of-a-kind manufacturing process.

The confidence of Pella's warranty.
Pella products are backed by some of the strongest warranties in the business. See written limited warranty for details, including exceptions and limitations, at PellaAtLowe.com/warranties.

* Pella's proprietary fiberglass material has displayed superior strength over wood, vinyl, aluminum, wood/plastic composites, and other fiberglass materials used by leading national brands in tensile and 3-point bend tests performed in accordance with ASTM D638 and D790 testing standards.

Unmatched strength & lasting durability
Made from our proprietary fiberglass, the strongest material available for windows and patio doors.¹

Sleek, timeless style
Versatile design elements combined with sleek profiles and clean lines deliver a timeless style.

Proven performance
Outstanding resistance to water, wind and outside noises all while increasing energy efficiency, security and ease of operation.

Engineered for lasting durability.

Superior strength.¹ Pella Impervia products are made from our proprietary fiberglass material and are on average 100x more impact-resistant than a leading wood/plastic composite product.³

Tested to the extremes. Tested from -40°F to 180°F, our fiberglass is designed to withstand subzero cold, the most extreme heat and the rigorous performance requirements of a commercial building.^{4,5}

Low-maintenance powder-coat finish. Our long-lasting powder-coat finish resists chalking and fading and helps keep your windows and patio doors beautiful.

Sleek, timeless style.

Versatile design elements. With sleek profiles and clean lines, Pella Impervia products deliver a timeless style. Offering solid- and dual-color frames, and grilles-between-the-glass to achieve your design.

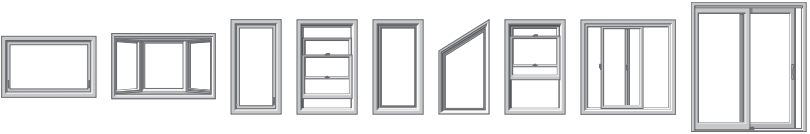

Larger combinations. The superior strength of Pella's fiberglass allows you to combine standard and special-size windows together to create larger, unique combinations, made just for your home.

Revolutionary hardware design. Slide open your casement and awning windows without the effort of cranking with the revolutionary Easy-Slide Operator hardware. The slim, sleek design provides a modern aesthetic paired with a comfort grip for easy use and smooth operation.

Pella Impervia products deliver unmatched strength and lasting durability with sleek, timeless style and proven performance. These windows and patio doors are made from our proprietary fiberglass, the strongest material available for windows and patio doors.¹ Tested in extremes and designed for every day, these windows and patio doors deliver outstanding resistance to water, wind and outside noises all while increasing energy efficiency, security and ease of operation.

Suitable for all climates, our fiberglass windows and patio doors help you create a comfortable home year-round. Pella Impervia offers energy-efficient options that will meet or exceed ENERGY STAR® guidelines in all 50 states.² Optional foam insulation and triple-pane glass further improves energy and sound performance.

Available in these window and patio door styles:

Special shapes also available.

View features and options online or ask an associate.

¹ Pella's proprietary fiberglass material has displayed superior strength over wood, vinyl, aluminum, wood/plastic composites, and other fiberglass materials used by leading national brands in tensile and 3-point bend tests performed in accordance with ASTM D638 and D790 testing standards.
² Some Pella products may not meet ENERGY STAR® guidelines in Canada. For more information, contact a Lowe's associate or go to energystar.gc.ca.
³ Impact testing performance based on testing 7 samples of each material using ASTM D256, Method A.
⁴ In testing performed with ASTM testing standards, Pella's fiberglass has displayed superior performance in strength, ability to withstand extreme heat and cold and resistance to dents and scratches. Special shape windows are made from a fiberglass resin material.
⁵ Pella Impervia windows and patio doors have a performance class of LC or higher. For information on product ratings see www.pella.com/performance.

Pella® 250 Series
Classic sliding patio door
with a White interior.

Windows & Patio Doors
Vinyl

Vinyl Windows & Patio Doors

When you want low-maintenance, energy efficient and affordable windows and patio doors, vinyl is the right choice. Our unique vinyl formula is performance-tested for excellent weathering, durability and color retention.

Multi-chambered frames and metal-reinforced, interlocking sashes add strength and durability while helping to prevent warping, sagging and bowing. White, Almond and Fossil-colored frames, with optional upgrades to dual-color frames, are available on select product lines.

Pella 250 Series

Innovative and enhanced security and privacy features for more peace of mind.

Pella 150 Series

Quality vinyl windows and patio doors, backed by Pella.

The confidence of Pella's warranty.

Pella products are backed by some of the strongest warranties in the business. See written limited warranty for details, including exceptions and limitations, at PellaAtLowes.com/warranties.

Pella® 250 Series

Vinyl

Innovative security and privacy features

Optional security and privacy features on windows and patio doors give you more peace of mind.

52% stronger frames¹

Multi-chambered vinyl frames and optional reinforced sashes are stronger than ordinary vinyl for increased durability.

62% more energy efficient²

Windows with triple-pane glass create a more comfortable home than windows with single-pane glass.

Pella 250 Series

Strong and secure vinyl.

Improved security. The Pella 250 Series classic sliding patio door with integrated footbolt meets or exceeds the highest industry requirements for forced entry and is our most secure vinyl patio door.³

Unique tamper prevention system. Double- and single-hung windows are designed with an interlocking checkrail, steel hardware reinforcement and a unique anti-jar sill.

Strong vinyl material. With multi-chambered frames and optional steel reinforced sashes, these frames are 52% stronger than ordinary vinyl, resist warping and twisting and install easily.¹

More of everything you love.

Excellent energy efficiency. Multiple insulating air chambers deliver comfort for your home. Upgraded triple-pane windows are on average 62% more energy efficient than single-pane windows.²

Exclusive vinyl formula. Using our exclusive fade-resistant formula, Pella's high-grade vinyl is performance-tested for excellent durability and weathering.

Quality that lasts. To help ensure our products exceed industry requirements and expectations, we test both the entire window and individual parts for strength and durability.

Pella 250 Series products offer innovative and enhanced security and privacy features for more peace of mind. Our exclusive vinyl formula is performance tested for excellent weathering, durability and color retention. Insulating frame chambers improve energy efficiency and multi-chambered frame designs are 52% stronger than ordinary vinyl.¹

With innovative and enhanced security and privacy features and our low-maintenance, easy-care vinyl, Pella 250 Series windows and patio doors are a great complement to your home's design.

¹ Based on the force required to bend a window frame profile.
² Window energy efficiency calculated in a computer simulation using RESFEN 5.0 default parameters for a 2000 sq. foot existing single-story home when comparing a Pella 250 Series vinyl window with InsulShield Advanced Low-E triple pane glass with argon to a single paned wood or vinyl window. The range of energy efficiency will vary from 54% to 77% and will vary by location. Your actual savings will vary. The average window energy efficiency is based on a national average of 94 modeled cities across the country with an adjustment based on population. For more details see pella.com/methodology.
³ To achieve a Grade 40 rating on ASTM F842, a test for forced entry excluding glass breakage, the optional footbolt must be installed and engaged.

Pella® 150 Series

Vinyl

Long-lasting vinyl

Pella 150 Series products use a precision welding process and a fade-resistant formula for added strength and durability.

Energy-efficient windows

Pella 150 Series windows offer solutions to meet or exceed ENERGY STAR® guidelines.¹

Helps make installation easier

Windows and patio doors feature solutions for easier installation.

Pella 150 Series

Long-lasting windows.

No refinishing. Low-maintenance, easy-care vinyl means no more painting, staining or refinishing.

Resists warping. Have fewer worries about warping, sagging or bowing vinyl with our precision welding process. Pella's design helps eliminate "vinyl smile".

Fade-resistant formula. Pella's vinyl uses a fade-resistant formula that is performance-tested for excellent weathering, durability and color retention.

High-quality vinyl.

Increased year-round comfort. Keep your home warmer in the winter and cooler in the summer with energy-efficient vinyl windows and patio doors

Easier installation. Even the best performing windows and patio doors are only as good as their installation. Installation solutions include fully assembled sliding patio doors and perimeter foam on block frame double-hung windows for quicker installation.²

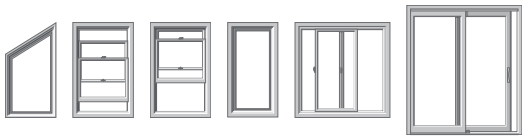

Backed by Pella. Pella 150 Series windows and patio doors are backed by a national network of dedicated and professionally trained service specialists. With one of the best warranties in the business from a brand you trust.³

Pella 150 Series vinyl windows and patio doors, available exclusively through Lowe's, feature long-lasting, quality vinyl frames — without the maintenance of painting, staining or refinishing. They are easier to install, energy efficient and are tested for excellent weathering, durability and color retention. Most importantly, you can have peace of mind knowing your windows and patio doors are backed by Pella, a leader in the window and door industry for over 90 years.

Screens⁵

InView™

InView™ window screens come standard on all Pella 250 Series windows and Pella 150 Series windows and patio doors.. They let in 14% more light and are 8% more open for improved airflow compared to conventional screens.⁶

250

150

Hidden Screen

The exclusive, easy-to-use Hidden Screen appears when you open a single-hung, double-hung or sliding window and folds away when the window is closed.

250

Sliding Patio Door Screens

Heavy-duty sliding screens come standard on Pella 250 Series classic sliding patio doors and are optional on Pella 150 Series sliding patio doors.

250

150

32

¹ Optional high-altitude Low-E insulating glass available with or without argon on select products.

² Not available with blinds-between-the-glass on Pella 150 Series sliding patio doors.

³ Available in the West Region only.

⁴ Foam insulation available only on double-hung, single-hung, and sliding windows.

¹ Appearance of exterior grille color may vary depending on the Low-E insulating glass selection.

² Grilles are not available with blinds-between-the-glass on sliding patio doors.

³ Available in the West Region only.

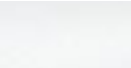

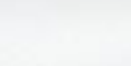

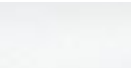

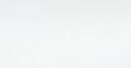

⁴ Grille patterns offered may vary by product. See specific product information for availability.

⁵ Warning: Use caution when children or pets are around open windows and doors. Screens are not designed to retain children or pets.

⁶ Improved airflow is based on calculated screen cloth openness. Screen cloth transmittance was measured using an integrated sphere spectrophotometer.

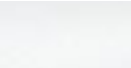

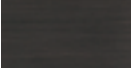

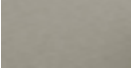

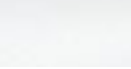

33

Window Hardware

Casement & Awning	Folds neatly out of the way so it won't interfere with roomside window treatments. Finishes complement frame colors.
 Fold-Away Crank 250	Color-Matched Finishes: 250  White  Almond  Fossil
Sliding, Single- & Double-Hung	Pella's cam-action locks push the sashes against the weatherstripping for a tighter seal. Optional AutoLock hardware automatically locks the window when it is shut, simply close the sash and confirm it latches.
 Cam-Action Lock 250  AutoLock 250  Cam-Action Lock 150	Color-Matched Finishes: 250 150  White  Almond  Fossil
Integrated Sash Lift	Make raising and lowering single- and double-hung window sashes easy with a standard, integrated sash lift.
 Window Integrated Sash Lift 250 150	Color-Matched Finishes: 250 150  White  Almond  Fossil
Window Limited Opening Devices	A vent stop can be engaged or disengaged manually and restricts how far the bottom sash of a double-hung window can open. A window opening control device (WOCD) complies with a safety standard and allows for ventilation, emergency escape and rescue when released. A WOCD automatically limits the sash opening to less than four inches, unless it is intentionally disengaged, enabling the sash to fully open.
 Vent Stop 250 150  WOCD 250 150	Color-Matched Finishes: 250 150  White  Almond  Fossil

250	Pella® 250 Series
150	Pella 150 Series

Patio Door Hardware

Sliding Patio Door Handle	Match the door's exterior color with a color-matched handle or coordinate it with other finishes in your home.
 Classic Sliding Patio Door Handle Standard Multipoint Locking System 250  Sliding Patio Door Handle 150	Color-Matched Finishes: 250 150  White  Almond  Fossil Additional Interior Finishes: 250 150  Oil-Rubbed Bronze  Satin Nickel
Integrated Flush Footbolt	Pella 250 Series classic sliding patio door with footbolt is our most secure vinyl patio door. ¹ The patent-pending footbolt is flush with the frame, providing secondary venting and locking abilities without compromising beauty.
	Color-Matched Finishes: 250  White  Almond  Fossil

Patio Door Blinds & Shades

Blinds-Between-the-Glass^{2,3}	Add privacy and complement your project's decor with blinds-between-the-glass. Located between panes of glass, blinds are protected from dust, pets and damage.
 White 250 150 ⁴  Slate Gray 250  Espresso 250	

¹ To achieve a Grade 40 rating on ASTM F842, a test for forced entry excluding glass breakage, the optional footbolt must be installed and engaged.
² Availability varies by size. See a Pella professional for details.
³ Available on dual-pane products only. Not available on sliding patio doors with grilles-between-the-glass.
⁴ Only available on 60" x 80" and 72" x 80" doors.

Finish Your Project

Pella offers windows, doors and installation accessories to get the job done right. Installation accessory availability varies by store.

Pella SmartFlash Window and Door Installation Tape
Item #147316

Tough, durable and easy to use.

- Stands up to UV exposure
- Can be applied in extreme temperatures as low as 0°F
- Creates a weatherproof seal to help avoid expensive leaks

Pella Installation Sealant
Item #1527429

An advanced, one component, polymer-modified polyurethane sealant.

- Paintable in one hour with water-based paints
- Fast curing, no solvents and low VOC
- Withstands extreme temperatures -- apply in temperatures from -40°F to 160°F
- High bond strength and UV resistant
- Interior and exterior applications on Pella window and door products and other construction materials

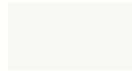

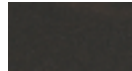

Pella Reversible Trim Coil
Item #1527428

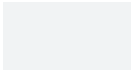

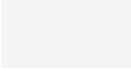

Fade-resistant formula for a durable, dent-resistant finish.

- Classic White and Brown reversible trim coil complements Pella vinyl and wood products — additional colors available through special order
- Made from low-maintenance aluminum
- 0.024" thickness
- Roll dimensions: 12 in. x 25 ft.
