NOTES: Because we're always working to further refine our products and develop new ones, specifications may change without notice. Actual products may vary slightly from illustrations and photos. Because of printing limitations, actual colors may vary from those shown. \*Study of homeowner perceptions of leading national brands. Study commissioned by Pella, 2021.

# See the Pella difference.

We offer a curated collection of fiberglass and steel entry doors delivering dependable performance and inspired designs. Explore our entry doors to find the perfect panel style, material and finish that will add beauty, performance and value to your home.

## Innovative, Low-Maintenance Frame Systems

For Pella's fiberglass and steel offering, the composite panel and frame system is engineered to stand up over time. The system resists moisture absorption and rot.

## Reduced Heating & Cooling Costs

Fiberglass and steel entry doors from Pella offer energy-efficient options that will meet or exceed ENERGY STAR® certification in all 50 states.\*

## Enhanced Security & Safety

Feel safer and more secure with Pella's exclusive and innovative, built-in security sensors and broad range of privacy glass. Or add Pella's optional multipoint locking system, which secures the door in three places.

## Personal Design Statement

Make a personal design statement with a beautiful new front entry door. Pella's curated portfolio of entry doors, with the most desired colors and glass styles, ensure your stylish new entry door complements other aspects of your home.

1/2 Light One Panel Smooth entry door in Spice Red with Danbury decorative glass.

## The finest materials

Enjoy increased curb appeal and exceptional performance. Our entry doors are available in two material types, each offering unique benefits and distinctive styles. Whichever material you choose will enhance your home's architectural style and perform beautifully.

### Fiberglass

- Grained fiberglass has the warm, rich look of wood.
- Material is dent-resistant and won't rust or corrode.
- Choose from Mahogany-grain, Oak-grain, Fir-grain and Smooth fiberglass.

### Steel

- Steel panels give your home a quality appearance that's easy to maintain.
- 20 minute fire rating for your peace of mind.
- Premium steel provides extra durability.

\* Some Pella products may not meet ENERGY STAR® guidelines in Canada. For more information, contact your local Pella sales representative or go to [energystar.gc.ca](http://energystar.gc.ca).

# Find your style.

## Traditional

A traditional aesthetic starts with a beautiful wood-grain fiberglass door. Add a touch of sophistication with hardware in a classic brass or nickel finish, and complete your elegant look with delicate decorative glass.

Del Mar Classic hardware in Satin Brass.

## Contemporary

Simplicity is key to creating a modern aesthetic. Entry doors for contemporary homes are unadorned and sleek. Choose clear or obscure glass and minimalist hardware finishes for the ultimate modern look.

Seattle Modern hardware in Matte Black.

## Craftsman

To achieve classic Craftsman styling, add a dentil shelf to your entry door system. Enhance the look of your home's square columns or exposed beams while providing your entryway with more natural light.

Classic Napa hardware in Satin Nickel.

## Frame & Panel Finishes

### Prefinish Options

All of the beauty. None of the work. Pella can prefinish your entry door in your choice of rich stain or paint colors.

#### Prefinished Stains

#### Prefinished Paints<sup>3</sup>

<sup>1</sup> Availability may be limited. Please contact your local Pella representative for more information.

<sup>2</sup> Available Summer 2023.

<sup>3</sup> The rich, distinctive look of Pella's factory-prefinished doors is achieved through hand-finishing. Some color variation is expected. Colors shown are as accurate as the printing process permits.

## Enjoy more natural light.

Pella entry doors feature many options for panels, sidelights and grilles that provide the perfect touch of style for your home. Our products feature wider openings with more glass to let in more natural light without compromising performance.

# Explore glass, grilles and between-the-glass options.

## Fiberglass

### Low-E Glass

Simple yet beautiful.

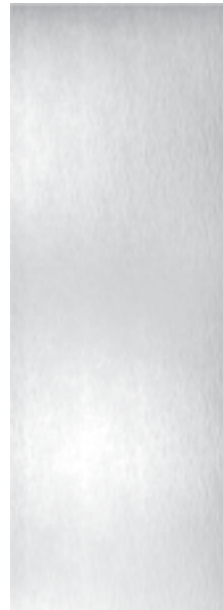

Energy-saving Low-E insulating glass is a simple, elegant option that helps protect flooring and furniture from fade damage.

### Low-E Obscure Glass

An elegant way to add privacy.

Pella's obscure glass patterns provide unique design simplicity.

Chord

Double Water

Pear

Satin Etch

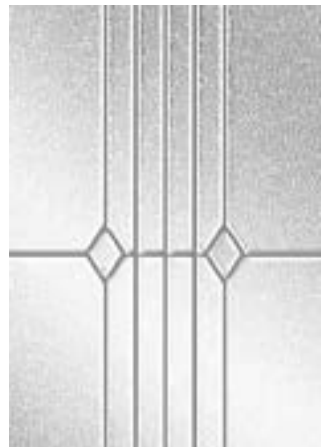

Narrow Reed

### Decorative Glass

An entryway statement.

Our exclusive decorative glass patterns create a personal design statement in any style of home. Choose from a wide selection of beautiful patterns.

See all decorative glass options on pages 15-16.

### Grilles- or Blinds-Between-the-Glass

Easier glass cleaning.

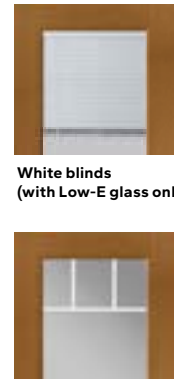

Pella offers two great additions that are permanently sealed between panes of insulating glass — obscure aluminum grilles-between-the-glass and cordless White blinds. Between-the-Glass Grilles leave a smooth glass surface, and cordless blinds offer light and privacy control without needing to be cleaned.

9-Lite Prairie
