

# Welcome, Neighbor!

## Vulcan Chula Vista Welcomes You to the Neighborhood

### Building Chula Vista

Our Chula Vista team at Vulcan Materials Company is excited to welcome you to the neighborhood. For nearly 100 years, the materials from our quarry in Chula Vista have helped build our community as we know and love it today.

### Our Operations

Quarrying activity has taken place at our Chula Vista location for nearly 100 years, starting long before Chula Vista development existed as it does today. As the region has grown, we have taken great care to make sure our operations are responsible and respectful of our surrounding communities.

Our Chula Vista quarry operates with the highest standards of health, safety, and environmental stewardship. We work hard to meet or exceed all local, state, and federal regulations and standards. While we are permitted to operate on a 24 hour a day/7 day a week basis, based on current demand, we generally are in full operation between the hours of 3:30 am and 4:00 pm, ship material from sunrise to sunset, and perform maintenance on our equipment in the overnight hours.

We occasionally ship material overnight when construction project owners deem night time work to be safer or less impactful to the the community.

### Vulcan Chula Vista Quarry

### DID YOU KNOW?

The sand, stone, and gravel produced at Vulcan's Chula Vista quarry was used to build the homes, schools, hospitals, parks, roads, sidewalks, and bike paths that now make up our community!

As a hard rock quarry, blasting is routinely necessary to break rock into manageable pieces. We are permitted to blast between the hours of 10:00 am and 4:00 pm. If your house happens to be within a certain distance of a planned blasting event, you will receive notification prior to the event.

Our day-to-day operations and blasting activities are designed to be safe, precise, and effective and are done in accordance with our permits and best practices. We are dedicated to being a good neighbor in our community and we take great pride in operating under The Vulcan Way: Doing the Right Thing, the Right Way, at the Right Time.

## Get in Touch

Have a question about our onsite operations or activity? Want to be added to our email list?

## Meet Steve Hallmark, Vulcan Chula Vista Plant Manager

### How long have you been with Vulcan?

7 years and counting!

### What is your favorite part of working at Vulcan?

My favorite part is the people. Vulcan is like a family that is there for you at every turn. Some of the best people I have ever met are here and it is an absolute pleasure to work with them. We love hearing from our community and are always available at (619) 591-4717 for any questions.

### What is your favorite restaurant in Chula Vista?

I have a couple go-to spots. One is called Lolita's Mexican Food. You can't go wrong with anything on their menu. I am a big pizza fan, so Bambino's Pizza is another go-to. Both places are great and have very friendly employees. That's just the way people are in Chula Vista!
