

January 13th, 2025

Dear Valued Customer:

Sysco's Specialty Meat Group (SSMG) utilizes a multi-hurdle food safety system to produce high quality wholesome beef products. Our process includes validated interventions and a robust supplier approval process, among many other initiatives. Unless otherwise indicated (e.g. use of the word cubed, mechanically tenderized, tenderized, enhanced, marinated, injected, blade tenderized, etc. in the product description), SSMG produced primal, subprimal and whole muscle cut beef items packaged in vacuum packages or butcher paper are intended for intact use only.

Sysco's Specialty Meat Group expects that any customer who purchases SSMG produced primal, subprimal and whole muscle cut beef items, then uses that product for other than intact purposes, address that specific usage in their food safety programs, including, but not limited to, their HACCP process. This includes addressing any potential pathogenic hazards.

This letter applies to the following SSMG establishments:

Buckhead Atlanta, USDA Est. # 2697
Buckhead Central Florida, USDA Est. # 27468
Buckhead Dallas, USDA Est. # 2213D
